

ADMISSIONS 2019-20

Delhi Public School Agra

Under the aegis of The Delhi Public School Society, East of Kailash, New Delhi
AFFILIATED TO THE CENTRAL BOARD OF SECONDARY EDUCATION, NEW DELHI

DPS Agra aims at providing opportunities to all its students to develop into confident, competent and global citizens emotionally, socially, intellectually and physically.

Why Delhi Public School Agra?

Delhi Public Schools, managed by The Delhi Public School Society, East of Kailash, New Delhi are one of the largest chain of public schools in India and abroad with over 200 members. Over a period of sixty years DPS has gathered experience and knowledge in managing k-12 education as few others have and this depth finds reflection in the way education is imparted in our schools. DPS believes in not just edu-

cating but in nurturing students as versatile leaders of tomorrow - a fact borne by the eminence of the alumni of this chain all over the globe. The vision with which we started the school has taken a definite shape now. Not only have our efforts, to give the students, a world class quality education, been recognized within the city but we are also leaving our mark on the skylines of Formal Education in the country.

DPS Agra has been ranked the best school of Agra by Education World, a renowned education oriented magazine. The school proudly occupies the 17th place among all Delhi Public Schools, on the basis of CBSE AISCCE (Grade XII) Results 2016-17. Our students have carved a distinct niche for themselves, getting positions in the top 10 ranks in various streams, among all Delhi Public Schools, in the AISCCE Results.

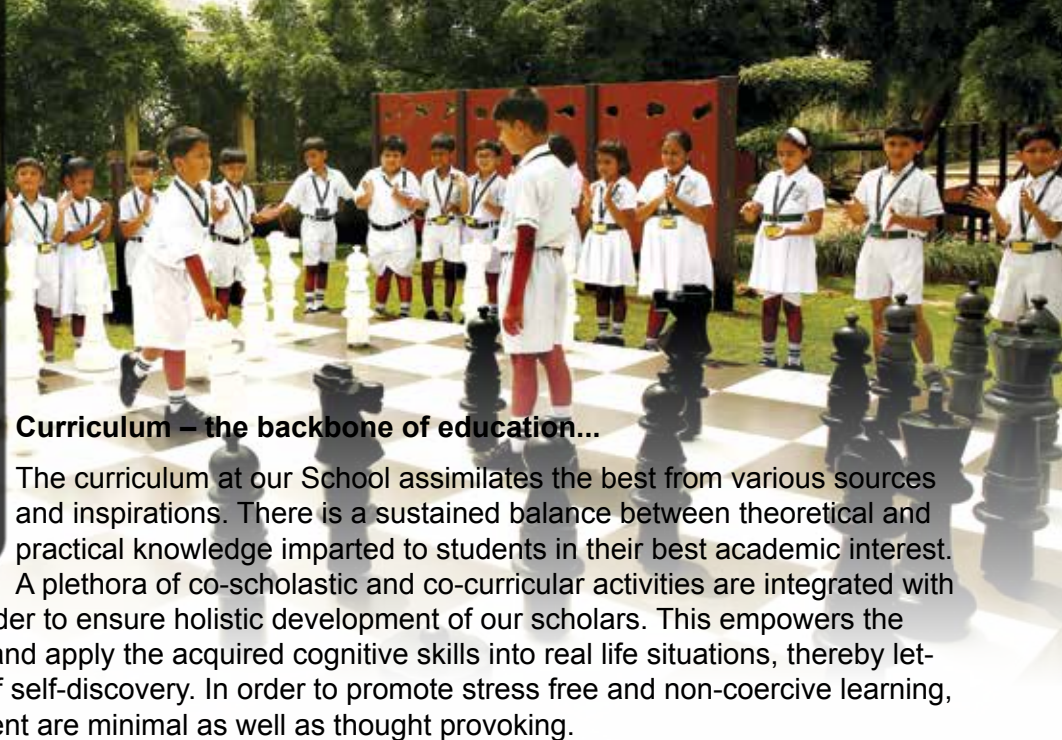

What We Offer...

DPS Agra promises to deliver world-class holistic education to its students: education that imparts knowledge by instilling confidence. Students are encouraged to ask questions instead of merely answering them because we believe that a curious mind is the receptacle of learning. We allow young children to explore because we believe that learning cannot be confined within the four walls of the classroom and that there is no better teacher than nature. We have embraced technology and innovation with an open mind because children of this millennium have to master technology and not become its slave.

Our efforts are backed by the ergonomic and scientifically designed campuses which are a learning space as a whole. Emphasis has been laid on utilising natural resources to the fullest. Students are taught the importance of environmental conservation through conscious minimising and recycling of waste making the school a zero-tolerant zone for plastic poly-bags.

DPS Agra aspires to see that each student becomes a leader and also ensures that the leadership training starts early in school with students' zealous participation in their respective Houses and Prefectorial bodies.

Curriculum – the backbone of education...

The curriculum at our School assimilates the best from various sources and inspirations. There is a sustained balance between theoretical and practical knowledge imparted to students in their best academic interest.

A plethora of co-scholastic and co-curricular activities are integrated with the mainstream curriculum, in order to ensure holistic development of our scholars. This empowers the children to unfurl their creativity and apply the acquired cognitive skills into real life situations, thereby letting them embark on a journey of self-discovery. In order to promote stress free and non-coercive learning, homework and assignment content are minimal as well as thought provoking.

A World Of Opportunity Beyond Academia...

A healthy body and a mind that can appreciate nuances of aesthetics in nature and diverse human activity are essential requisites of a balanced human being. To facilitate that, the school's calendar contains a host of co-curricular activities that cover a very wide spectrum of events round the year. Performing and visual arts, sports and games, environmental studies, meditation and yoga are practiced as a part of the routine. Thematic events are organised at regular intervals. Children are exposed to real world experience through interaction with the community. Trips and excursions to places of historical and social importance make them aware and informed. They also get opportunities to interact with experts and resource persons from various fields of human endeavour.

Evaluation – A Comprehensive and Continuous Process...

Evaluation for us is sacrosanct and not merely a tool to judge the capacity of a child to memorize printed information. Evaluation is done via aptitude and skill based tests. These are used to understand every individual's learning curve, capabilities and optimise each student's study program. Evaluation also includes areas such as essential life skills, conceptual development, personal attributes, social, emotional and behavioral development, work habits, etc. Pedagogical

Approach

Each teacher on our campus plays multiple roles which extends to being a friend, philosopher and mentor to the young inquisitive minds and souls. DPS Agra believes that 'a contented teacher is a good teacher' and in order to ensure this, teachers are exposed to various re-skilling and training programmes.

DPS Agra is modelled on the concept of a holistic educational institution designed to promote physical, mental and social development. A meticulously planned academic and non-academic curriculum ensures a thorough understanding of basic concepts, thus laying a strong foundation for a sound education. At DPS Agra, we encourage each and every student to participate in cultural, literary and social activities. Activity periods incorporated into the mainstream curriculum open avenues of exploration and pursuit of hobbies. Impetus to sports encourages participation in various indoor and outdoor sporting disciplines fostering team spirit, loyalty and unity—the essential components of the learning process.

'Junoon' – Art at Play with School

We at DPS Agra, strongly believe that creativity and imagination must be unleashed to impart true education to our students. Curiosity here is never left unquenched. Junoon - Arts at Play workshop which is headed by well renowned theatre personality Ms. Sanjana Kapoor grand-daughter of the legend Mr Raj Kapoor is a part of school curriculum which enhances personality development. This is a weeklong workshop during which the students through joyous activities explore, discover and learn the power of teamwork and collaboration as well as the joys of free creative expression.

Art1st

Art is the creative expression of humanity. Whatever can be interpreted in a visual form in terms of shapes, colours, figurines etc is art.

Art1st was introduced with a vision to create and develop learning environments that nurture and strengthen imagination, visual literacy, creative skills and cultural awareness of children and educators. The Art1st program was inducted in the curriculum of DPS Agra, in 2016. Through this program, art was taken out from the routine drawing of sceneries or figures and was given an infusion of new energy. Whereby it acquired the ability to become a powerful medium; through which we can understand ourselves and transform the world around us.

We believe that everyone is born creative and curious, eager for meaningful experiences. The work done by the students over the span of last 3 years has shown progression and movement towards the vast uncharted and unknown but thoroughly intriguing and exciting world of art. Their work continually promotes the joy and transformative nature of art. The curates show exhibits at the end of every academic year, showcase the work of each child, each work being unique, distinct and special.

Resources that comes **FREE** to every student in our school.

The hidden benefits that parents do not realise

Edutainment

“Edutainment is one of the best means of education.”

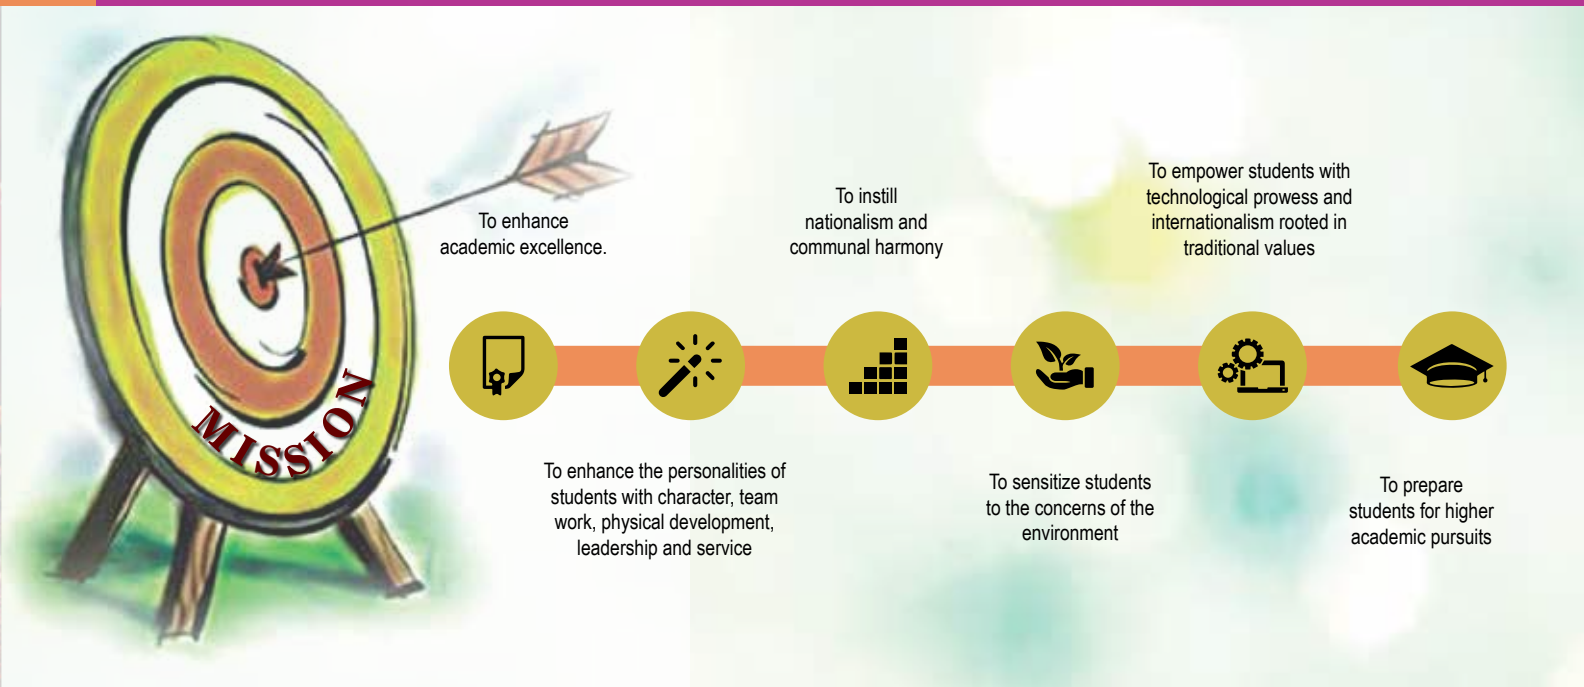

Delhi Public School Agra has taken a unique initiative to conduct ‘Edutainment Programmes’.

This programme is designed for the students and by the students. It is the creative work of the students, and as the name suggests ‘education’ as well as ‘entertainment’. It gives every child an opportunity to explore research, collect data, analyze and creatively present the information on the topic.

The programme also gives a platform to the parents to express their views which ensure that they are as much a part of the programme as are their children.

Hence, by the end of the session every student would have got the opportunity to express himself/herself in his/her unique manner.

Special Mission Of Dps Agra:

Our State and National NTSE Scholars In order to develop the scholastic skills and mental ability of its students so that they are better prepared for various competitive examinations after Plus Two and even later on, DPS Agra is the only school in the city that gives specialized training to students of Grade X for the NTSE (National Talent Search Exam) by resources dedicated to this noble task and DPS Agra does it for free!! Each year we have been producing state and national scholars of NTSE.

Ensuring Holistic Education...

DPS Agra is spread over two campuses housing junior and senior students. The Foundation Campus houses the pre-primary sections and Grades I and II while the Senior Campus has Grades III to XII. The school and city's clientele take pride in the fact that DPS students have always excelled in various fields at the city, regional and even national levels. Excellent result of the School's Senior Secondary Section (XI & XII) comprising Science, Commerce and Humanities Stream year after year has made the School earn a distinguished reputation for itself. The School offers a choice between Sanskrit and German as the third language subject of study in class VIII. Optimal student-teacher ratio is maintained throughout to facilitate individual care and attention. DPS Agra provides all comforts to children in the school to ensure that they are not faced with mental or physical fatigue. This is further facilitated with counselling provided by professional counsellors both at the Foundation and Senior Campuses. In order to help our senior students step out into the world beyond school, the school provides in-house career counselling and guidance.
